COVID-19 and the State of the Financial Technology Industry in the Philippines:

Augmenting Financial Literacy During the Pandemic

During the COVID-19 pandemic, bright opportunities have paved the way for the financial technology industry, ranging from the expansion of the utilization of online banking to developing a whole new level of financial inclusivity among all Filipinos. This article delves into the major achievements of the financial technology industry in the Philippines, and how it has augmented online transactions in the real world.
